DESKTOP APPS GUIDELINE – CALL FORWARD

1 Open Managed Voice from PC / Laptop

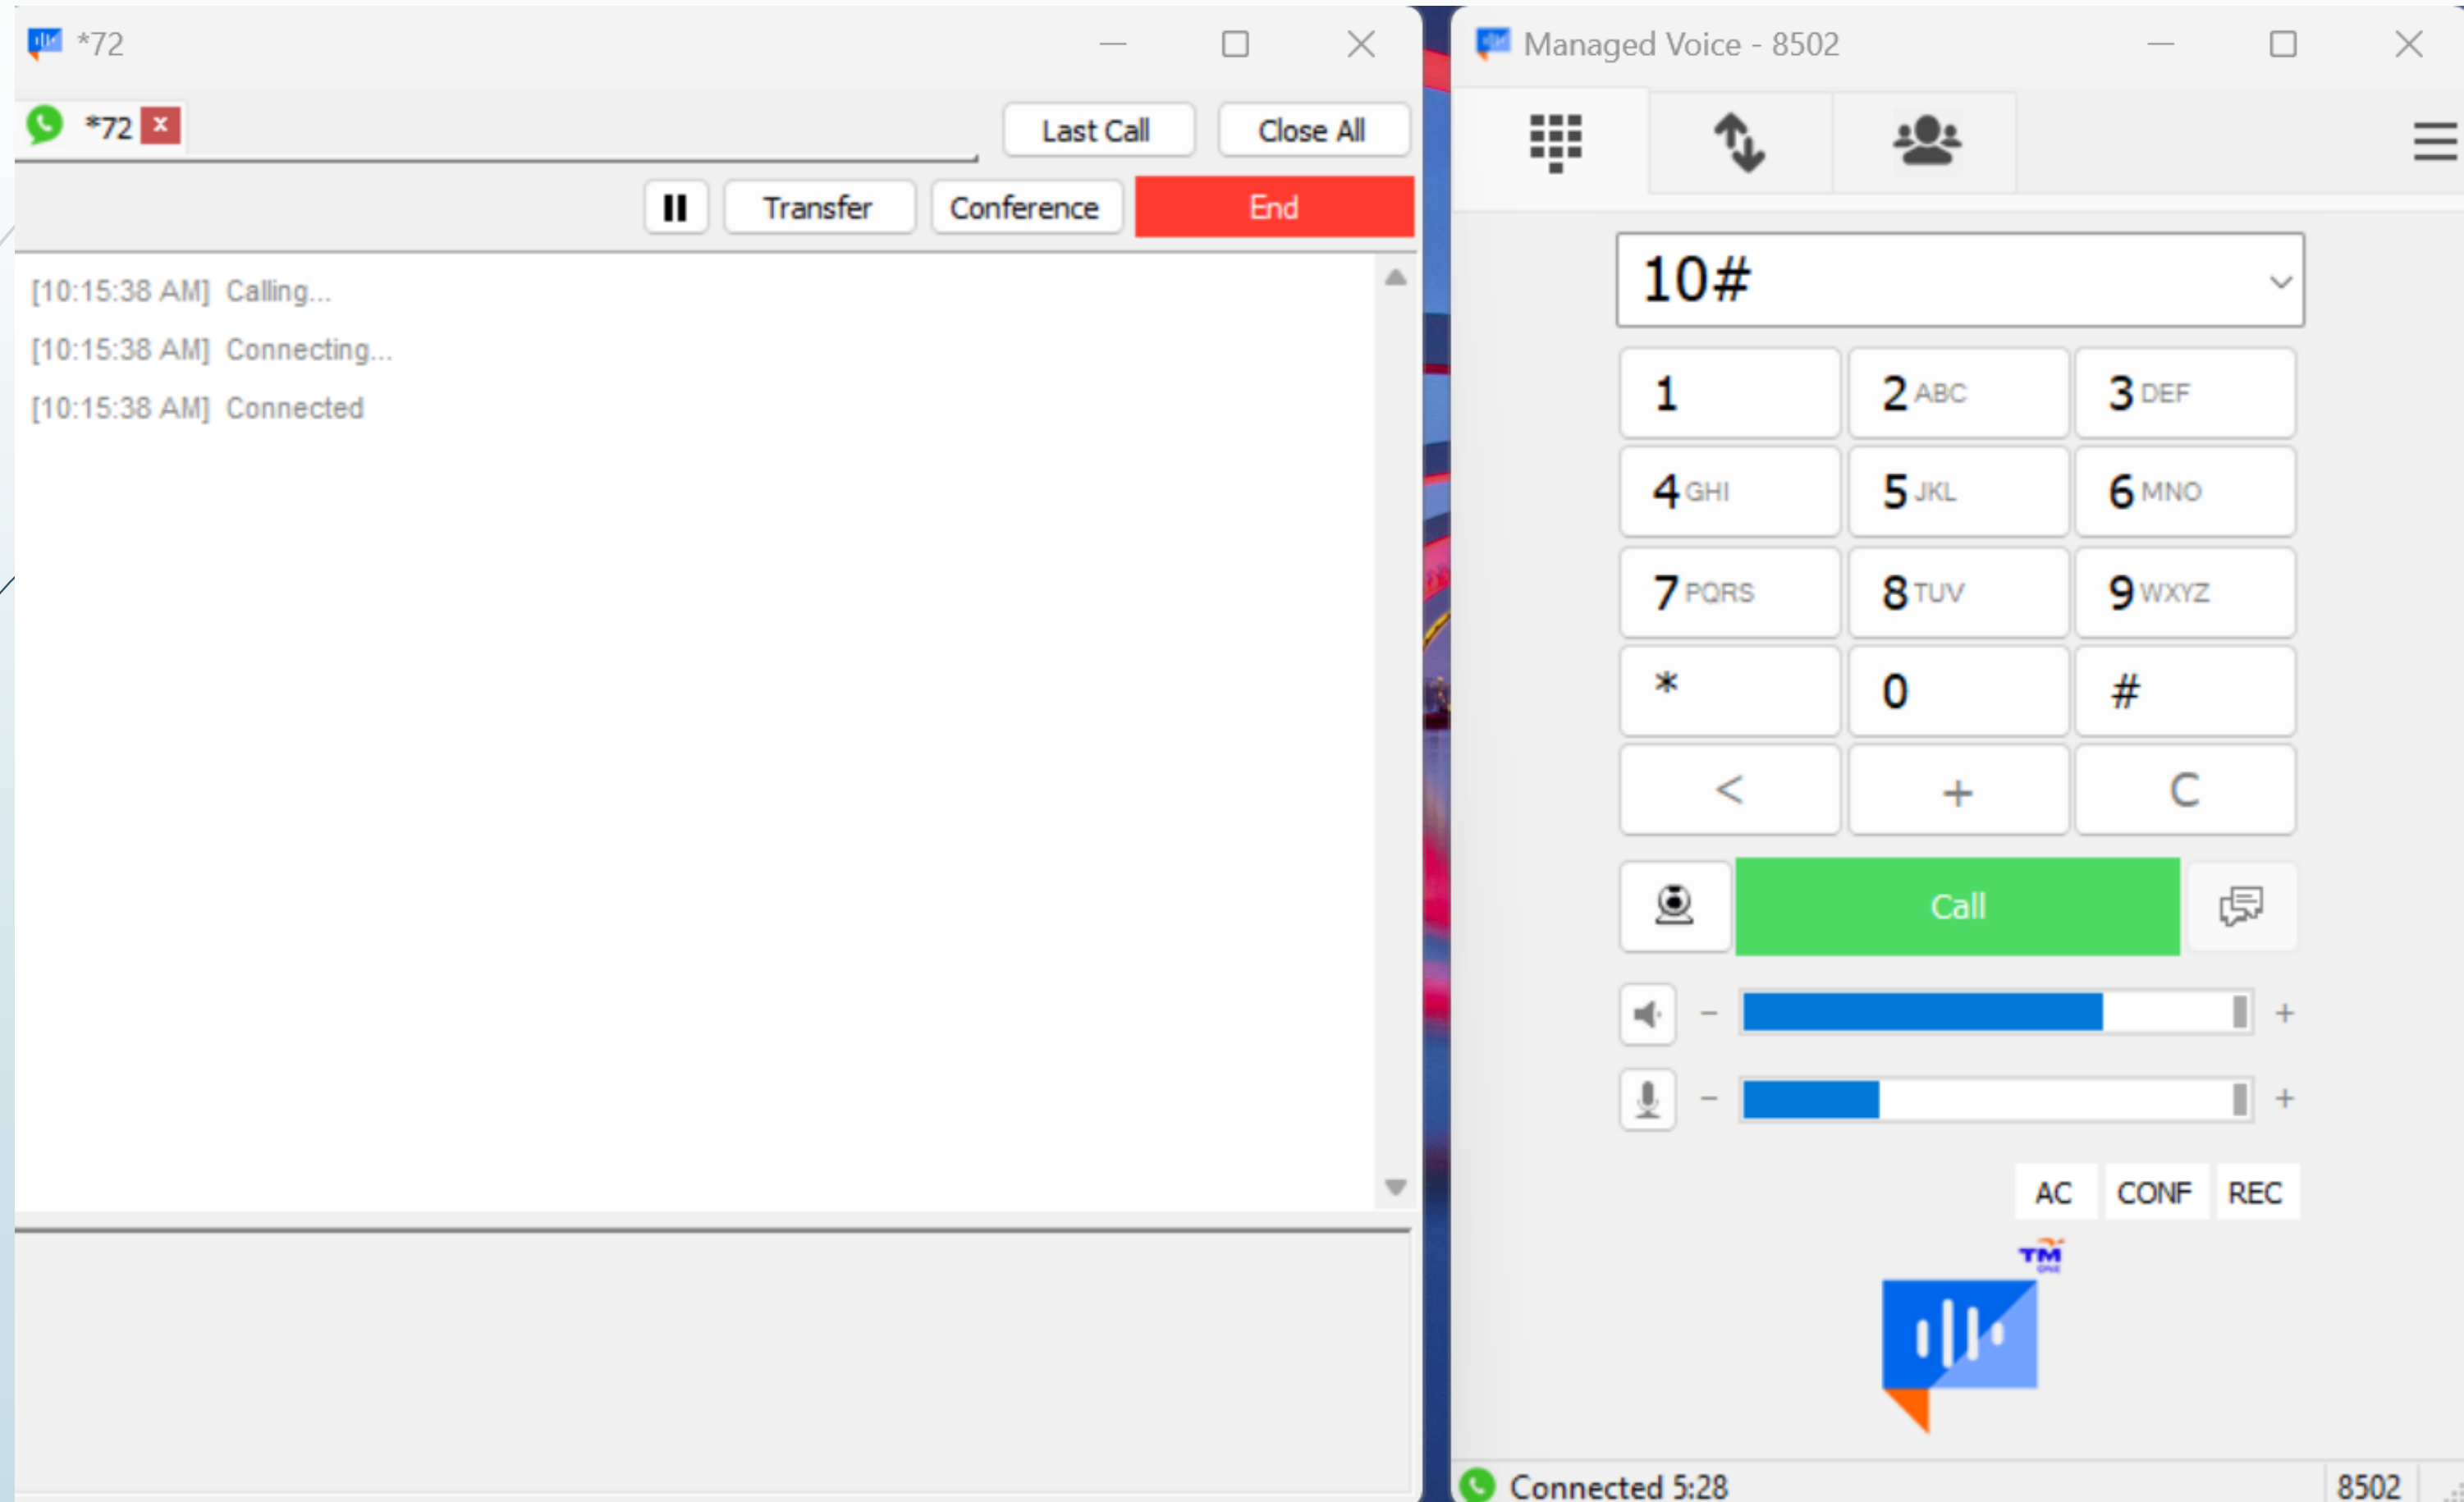

2 Dial *72 to activate the call forward then press call.

DESKTOP APPS GUIDELINE – CALL FORWARD

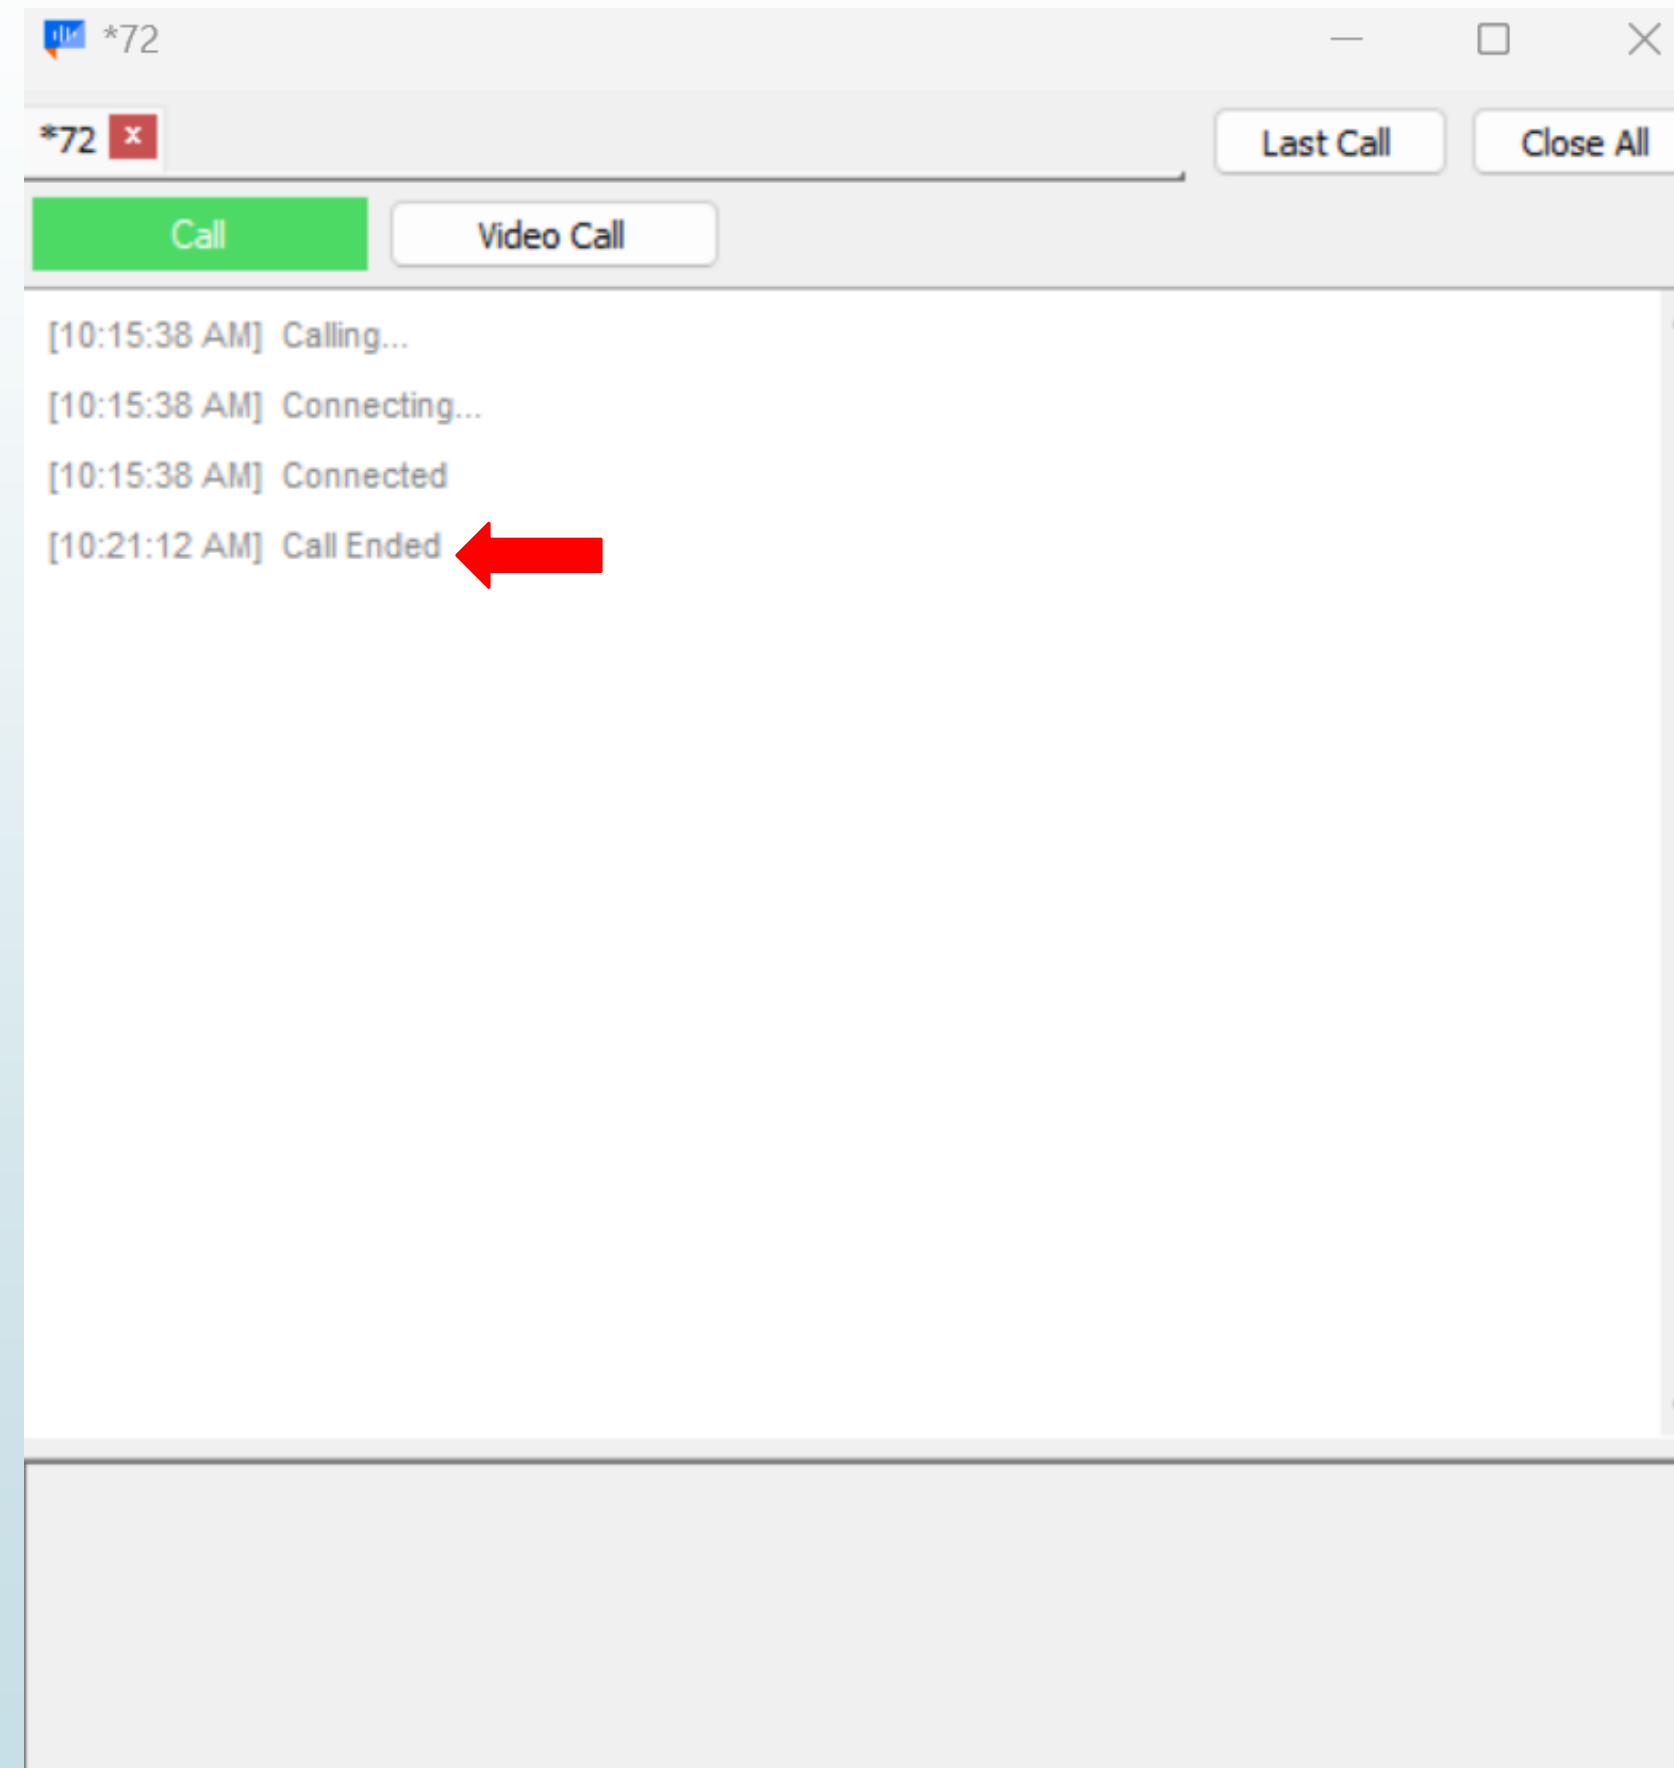

- 3 Insert the extension number or mobile number to forward call then press #

The screenshot displays two windows from a desktop application. The left window, titled '*72', shows a call log with the following entries: [10:15:38 AM] Calling..., [10:15:38 AM] Connecting..., and [10:15:38 AM] Connected. The right window, titled 'Managed Voice - 8502', features a numeric keypad with digits 1-9, *, 0, and #. A green 'Call' button is visible below the keypad. The status bar at the bottom of the right window indicates 'Connected 5:28' and the number '8502'.
